

Goudy

Much like a judges scale, Goudy is known for being a font that is very balanced. This is due to the uniqueness of the typeface. The curves and serifs help create an elegant and clean look causing many people to prefer it for its easy legibility.

This Venetian inspired mask is used to represent the Venetian elements portrayed in the typeface. Goudy's delicate and curved serifs are used as the detailing of the mask, much like the detailing on real Venetian masks. These detailings are what makes the typeface stand out from many of the other ones.

Goudy is the official font of Clemson University. They use it because of it's familiarity. They prefer Goudy Old Style over it's bold and bold italics version for they feel it loses its elegance with all of the adjustments.
